LOE						

Hand to Hand Combat Procedure:

- Create as may 1:1 matchups as possible.
- Resolve melee one matchup at a time.
- Figures attack in order of weapon Reach.
- Draw Action cards, apply melee modifiers, and determine hit or miss.
- If hit, draw a card for hit location and damage to enemy (look at weapon shape for damage).
- Subtract applicable armor from damage.
- Figures that took one or more points of damage to their Endurance are stunned and back two inches away from the enemy.
- Any figures who took no damage may advance up to one inch, including hopping over cover.
- Any figures still in contact (neither took a wound) move backward one inch but are not stunned.
- When a figure *should have* received 0 or more points of damage, but armor, shields, or cover protected it, the figure's Leader still accrues a morale marker.

Armor Effects:

- Non-metal armor reduces damage by 1
- Metal armor reduces damage by 2
- If the target is wearing the indicated shield or larger, damage is also reduced by one additional point.

When cover protects a figure from...

- ... missile fire, the figure is stunned.
- ... melee weapons, the figures is NOT stunned.
